

2020

DENTAL THERAPY, HYGIENE & OHT SEMINARS

Friday
April 17
12.45 - 5.00pm

4 CPD hours
\$250 inc GST

Dr Jilen Patel | Specialist Paediatric Dentist

Adhesive systems in Paediatric Dentistry. From smear layer to sealants.

This seminar will explore adhesive systems in the context of paediatric dentistry. Understanding the fundamentals of composite bonding through to preventive and restorative treatments.

What constitutes resin composites and how do they work? How long should you etch? Should you use pumice before sealing? How effective are universal bonding systems?

Dr Amanda Phoon-Nguyen | Oral Medicine Specialist

The things that keep me awake at night. The discussion on the unmissable.

This interactive seminar will present cases in paediatric oral medicine, with discussion on potentially life altering diagnoses such as paediatric cancer, orofacial pain conditions and systemic medical diseases.

Friday
May 15
12.45 - 5.00pm

4 CPD hours
\$250 inc GST

Dr Greg Celine | Specialist Paediatric Dentist

Management of the Patient with Craniofacial Anomalies and Clefts.

This presentation will provide an overview of the treatment and management of craniofacial anomalies and the types of clefts experienced by patients visiting the Perth Children's Hospital Cleft Craniofacial unit.

Dr Michael Hurrell | Oral and Maxillofacial Surgical Registrar

Trauma, Infection, Oral Pathology and Orthognathic Surgery.

Oral and maxillofacial surgeons commonly manage patients with odontogenic infection and facial trauma. They also manage obstructive sleep apnoea and dento-facial deformity with orthognathic surgery and replace missing teeth with dental and craniofacial implants. All of these procedures will be presented along with the management of oral benign and malignant pathology.

Friday
July 24
12.45 - 5.00pm

4 CPD hours
\$330 inc GST

Dr. Julio Rincon | Specialist Periodontist

Practical hands-on workshop. The Art of Sharpening Periodontal Instruments.

Advanced periodontal sharpening concepts will be covered including using a sharpening stone and diamond card, sharpening using powered instruments such as the Sidekick and Periostar.

Participants will be guided through this workshop with a lecture, practical demonstration, followed by a hands-on practical component for Gracey's, Universals, Carbon fibre Curettes for implants and Hoes

Saturday
August 8
8.30am - 1.00pm

4 CPD hours
\$440 inc GST

Dr. Marc Tennant

Practical hands-on workshop. Local Anaesthesia: A Refresher for Dental Practitioners

Local anaesthetics are the most commonly used drugs in dentistry used in the prevention and management of pain during dental procedures.

This limited attendance practical hands-on course aims to refresh and update your knowledge on the use of local anaesthesia using traditional syringe and wand delivery.

Friday
September 4
12.45 - 5.00pm

4 CPD hours
\$250 inc GST

Julie MacRae | Occupational Therapist

A practical approach to manually transferring your patient into the dental chair.

Occasionally we treat patients who attend our surgery in a wheelchair, using a walking frame, are aged or disabled.

This workshop will provide the participant with skills to manually transfer patients into the dental chair without risking injury to either the patient or themselves.

Daniel Sundaresan | Specialist, Special Needs Dentistry

Treatment planning considerations for the Special Needs patient.

This presentation will discuss the term 'special needs' and explain the scope of special needs dentistry. Participants will understand the considerations needed for those patients with dementia and those with an intellectual or physical disability.
