

2021

DENTAL THERAPY, HYGIENE & OHT SEMINARS.

Saturday
March 6
8.30am - 1.00pm

4 CPD hours
\$250 inc GST

Dr Marc Tennant

Local anaesthesia. A refresher for Dental Practitioners.

Local anaesthetics are the most commonly utilised drugs in dentistry, used in the prevention and management of pain during dental procedures.

This workshop style session aims to refresh and update your knowledge on the use of local anaesthesia using traditional syringe and wand delivery.

Monday
May 24
12.45pm - 5.00pm

4 CPD hours
\$330 inc GST

Dr. Julio Rincon | Specialist Periodontist

Practical hands-on workshop. The Art of Sharpening Periodontal Instruments.

Advanced periodontal sharpening concepts will be covered including using a sharpening stone and diamond card as well as sharpening using powered instruments such as the Sidekick and Periostar.

Participants will be guided through this workshop with a lecture, practical demonstration, followed by a hands-on practical component for Gracey's, Universals, Carbon fibre Curettes for implants and Hoes.

Friday
July 16
8.30am - 5.00pm

6.5 CPD hours
\$380 inc GST

Dr Jilen Patel | Specialist Paediatric Dentist

Adhesive systems in Paediatric Dentistry. From smear layer to sealants.

This seminar will explore adhesive systems in the context of paediatric dentistry. Understanding the fundamentals of composite bonding through to preventive and restorative treatments.

What constitutes resin composites and how do they work? How long should you etch? Should you use pumice before sealing? How effective are universal bonding systems?

Dr Amanda Phoon-Nguyen | Oral Medicine Specialist

The things that keep me awake at night. The discussion on the unmissable.

This interactive seminar will present cases in paediatric oral medicine, with discussion on potentially life altering diagnoses such as paediatric cancer, orofacial pain conditions and systemic medical diseases.

Dr Janina Christoforou | Oral Medicine Specialist

Dr Jane McCarthy | Specialist Periodontist

Diabetes and Dental Health.

Diabetic patients can prove to be a challenge for the dental practitioner. This presentation by Drs Christoforou and McCarthy will discuss considerations the practitioner may face when treating diabetic patients including:

- The evaluation of the diabetic patient.
- Oral manifestations in a diabetic patient.
- Periodontal considerations.
- Potential complications with may arise from dental management.

Telethon Kids Institute

Getting to grips with COVID19.

A quick snapshot of where Western Australia is placed globally in researching and managing COVID19.

Monday
August 23
12.45pm - 5.00pm

4 CPD hours
\$250 inc GST

Julie MacRae | Occupational Therapist

A practical approach to manually transferring your patient into the dental chair.

Occasionally we treat patients who attend our surgery in a wheelchair, using a walking frame or are aged or disabled.

This workshop will provide the participant with skills to manually transfer patients into the dental chair without risking injury to either the patient or themselves.

Daniel Sundaresan | Specialist, Special Needs Dentistry

Treatment planning considerations for the Special Needs patient.

This presentation will discuss the term 'special needs' and explain the scope of special needs dentistry. Participants will understand the considerations needed for those patients with dementia and those with an intellectual or physical disability.
